ITH Group Cookie Policy

Version: 1.0
Policy Owner: ITH Group
Effective Date: 23 October 2026
Last Updated: 23 October 2026

1. About this Cookie Policy

This Cookie Policy explains how ITH Group and its associated companies ("ITH", "we", "us" or "our") use cookies and similar technologies when you visit our websites.

It explains:

what cookies and similar technologies are;
why we use them;
the types of cookies we use;
when your consent is required;
how you can manage or withdraw your consent; and
how you can contact us about our use of cookies.

This Cookie Policy should be read alongside our Privacy Policy, which explains how we collect, use and protect personal information.

2. What are cookies?

Cookies are small files that websites can place on your computer, smartphone, tablet or other device when you visit them. Cookies can, for example, enable a website to recognise a device, remember preferences or help understand how a website is being used. The ICO describes cookies as small files downloaded to a user's device that can be used to recognise the device and store information about preferences or previous actions.

The law is not limited to traditional browser cookies. Similar technologies that store information on, or access information from, a user's device are also covered by the relevant rules.

For simplicity, this policy refers to all of these technologies as "cookies".

3. How we use cookies

ITH may use cookies to:

enable the website and its core functionality to operate;
maintain the security and integrity of our website;
remember choices or preferences you make;
understand how visitors interact with the website;
measure and improve website performance; and
provide functionality delivered through third-party services where applicable.

We will only use non-essential cookies where we have an appropriate legal basis and, where required, you have given your consent.

4. Types of cookies we use

Strictly necessary cookies

These cookies are required for the operation, security or delivery of functionality that you have requested from our website.

Examples may include cookies used to:

maintain security;
manage a user session;
remember information necessary to provide a requested service; or
maintain your cookie consent preferences.

Where the applicable statutory exception applies, consent is not required for these cookies. The ICO confirms that certain storage and access technologies may be used without consent where an applicable exception applies.

You may still be able to block these technologies using your browser, but doing so could prevent parts of the website from operating correctly.

Functional cookies

Functional cookies allow a website to provide additional functionality or remember choices you make.

Where these cookies do not fall within an applicable statutory exception, we will obtain your consent before placing or accessing them.

Analytics and measurement cookies

These technologies help us understand how visitors use our website, for example which pages are visited and how visitors navigate through the site.

We will only use analytics or measurement technologies without consent where their use falls within an applicable exception under UK law. Otherwise, they will only be activated after you have provided consent.

Advertising and targeting cookies

If ITH uses advertising or targeting technologies, these may be used to understand interests, measure advertising effectiveness or provide relevant advertising.

Unless an applicable statutory exception applies, these technologies will not be activated unless you have provided consent.

ITH should remove this category if the deployed website does not use advertising or targeting technologies.

5. Cookies used on this website

The following information should be maintained so that it accurately reflects the technologies actually deployed on the ITH website:

Cookie/technology Provider Purpose Category Duration Third party?To be populated from website cookie scan

6. Your consent and choices

When you first visit our website, you may be presented with a cookie consent tool.

Where consent is required, non-essential cookies will not be activated until you have made the relevant choice.

You should be able to:

Accept non-essential cookies;
Reject non-essential cookies;
manage your preferences by category; and
subsequently change or withdraw your choices.

Consent must be actively and clearly given.

Rejecting non-essential cookies will not prevent you from using the core functions of the ITH website, although certain optional features may not be available.

7. Changing your cookie preferences

You can change your cookie preferences at any time using the"Cookie Settings" or equivalent link available on our website.

You can also manage cookies through your web browser. Browsers generally allow users to delete cookies, block cookies, control third-party cookies or clear cookies when the browser is closed.

Changing browser settings may affect the way our website operates.

8. Third-party services

Some functionality on our website may be provided by third parties.

Where those services place or access information on your device, we will identify them in our cookie management tool and/or the cookie list in this policy as appropriate.

Third-party providers may process information in accordance with their own privacy and cookie policies. Where their technologies require consent, they will not be activated through our website until the required consent has been obtained.

9. Personal data collected through cookies

Some cookies and similar technologies may involve the collection or processing of personal data.

Where this occurs, such information will be handled in accordance with applicable UK data protection law and our Privacy Policy.

Our Privacy Policy provides further information regarding how ITH uses personal data, the legal bases on which we process it, how long information may be retained, who it may be shared with and the rights available to individuals.

10. How long are cookies retained?

Cookies can be:

Session cookies, which normally operate for the duration of a browsing session; or

Persistent cookies, which remain on a device for a specified period or until they are removed.

The duration applicable to each cookie used by ITH should be provided in the cookie table or cookie management tool.

We periodically review the cookies and similar

technologies used on our websites and remove those that are no longer required.

11. Changes to this Cookie Policy

We may update this Cookie Policy from time to time to reflect changes to:

the cookies or technologies used on our websites;
our services;
relevant legislation or regulatory guidance; or
the way in which we process information.

Where our use of cookies changes in a way that requires consent, we will request consent as appropriate. The ICO specifically notes that fresh consent may be needed if an organisation's use of cookies changes over time.

The date at the top of this policy indicates when it was last updated.

12. Contact us

If you have questions about this Cookie Policy, ITH's use of cookies, or how we handle personal information, please contact:

ITH Group
Unit 4 Premier Park
Premier Park Road
London

13. Further information

The Information Commissioner's Office (ICO) is the UK's independent regulator for data protection and electronic communications privacy.

Further information about cookies and privacy is

available from the https://ico.org.uk/for-the-public/online/cookies/. The ICO confirms that the cookie rules sit within the Privacy and Electronic Communications Regulations 2003 and also cover similar technologies used to store or access information on a user's device.
